

Fighting Fraud in an
Interconnected
Global Ecosystem

**Collective Risk-Sharing:
Exploring Real Time Signal Sharing Frameworks
Paired With a Global Fraud Regulation Fund (GFRF)**

Part A - Policy

Challenge: Develop a cross-border policy and intelligence-sharing framework that disrupts the global fraud ecosystem, addressing both APP and unauthorised fraud across sectors and jurisdictions.

Solution: Global Fraud Regulation Fund (GFRF)

- ☒ **Relevant**
- ☒ **Ethics and Responsibility**
- ☒ **Operational Realism**
- ☒ **Technical execution**
- ☒ **Strategic Coherence and Originality**

Part B - Technical

Challenge: Design and, optionally, build a proof of concept for a cross- border fraud signal exchange that operates in a privacy-preserving manner and is consistent with the policy and governance framework you proposed in Part A.

Solution: Real Time Signal Sharing Frameworks

- ☒ **Relevant**
- ☒ **Ethics and Responsibility**
- ☒ **Operational Realism**
- ☒ **Technical execution**
- ☒ **Strategic Coherence and Originality**
